SPECIFIC FOR DIABETIC WOMEN**

## THE SOLUTION

**SD** SPECIAL FOR DIABETICS  
Ultra-calming

THE FIRST **GYNAECOLOGICAL TREATMENT**  
SPECIFIC FOR DIABETIC WOMEN

### Diabetes: what is it?

DIABETES IS A DISEASE CHARACTERISED BY AN INCREASE IN GLYCAEMIA, THAT IS, IN BLOOD GLUCOSE LEVELS AND OUR ORGANISM IS NOT ABLE TO RESTORE THEIR NORMAL RATES.

The WHO records about 346 MILLION PEOPLE suffering from DIABETES all over the world. Besides, it estimates diabetic people will reach 370 million in 2030, with a growing also of cases of deaths caused by diabetes and its complications.

**Diabetes can provoke acute or chronic complications, such as: diabetic retinopathy, diabetic nephropathy, cardiovascular diseases, diabetic neuropathy, diabetic foot, complications during pregnancy.**

### HOW DIABETIC COMPLICATIONS COULD BE LIMITED?

First, diabetic patients should adopt a healthy lifestyle, in order to improve their quality of life, by taking regularly under control:

- Their **body weight**
- Their **dietary balance**, in order to avoid glycaemic peaks, especially post-meals glucose peaks;
- Their **arterial pressure** and the level of **lipids in blood** (cholesterol, HDL, LDL and triglycerides);

Furthermore, **it is fundamental to do physical activity and to abstain from smoking, drinking alcohol and excessively sugary beverages.**

### Which are gynaecological complications of a diabetic woman?

#### HIGH RISK OF BACTERIAL AND FUNGAL ATTACKS

due to the high levels of glucose in the biological fluids.

#### VAGINAL DRYNESS

and **PAIN during sexual intercourses (DYSPAREUNIA)**, due to phenomena of angiopathy and neuropathy, typical in diabetic people, which provoke a reduced vaginal lubrication.

#### REDUCTION IN SEXUAL DESIRE

due to the neuropathic complications of diabetes that alter women's perceptions

**Dermoxen Ultra calming SD** exerts a specific and gentle action against vulvovaginal dryness. It prevents bacterial and fungal attacks, while protecting vaginal mucous membranes of diabetic women, thanks to the combined presence of

- **Natural extracts of Fucus vesiculosus:** with a moisturizing and emollient action
- **Avenanthramide:** with a natural soothing action against itching, burning and redness caused by vaginal dryness
- **Lactic acid:** with a restoring action of the proper acidity level (pH) of the vaginal ecosystem, while preventing bacterial and fungal attacks
- **Hyaluronic acid:** an excellent natural moisturizing and protective agent.
